

### EDGE® SNOW BLOWER

With the EDGE snow blower attachment, you can remove snow from sidewalks, driveways or any area your skid loader will fit.

### OPERATIONAL BASICS

The EDGE snow blower features a poly-lined, hydraulically controlled chute and deflector that has a 280 degree radius, so you can easily put the snow where you want it. The snow blower widths range from 48" (1219 mm) to 96" (2438 mm), and they can throw snow up to 45' (13.71 m). All units are available for standard or high-flow hydraulics. An optional truck chute is available for high flow G & H models.

### SPECIFICATION
